- Achievement in the field of dealing with clinical trials (publications, scientific initiatives).
- Declaration of intent including a statement of the contribution that the candidate is able to make to D-ECCO.

- Experience (for instance in programme development, project development, clinical trials).
- ECCO fosters diversity of representation. This is why scores are not the only consideration of every committee. Other important factors that have to be considered during the election process are regional and gender diversity, institutional affiliation within the committee, age, the degree to which the person will contribute to D-ECCO tasks, academic expertise, team spirit, commitment, familiarity with ECCO, prior contribution to ECCO and future potential.

Election takes place during Committee Meetings in autumn. Elected candidates will be informed in due course.

Announcement of new Committee Members takes place during the General Assembly on February 19, 2026 at the ECCO'26 Congress in Stockholm, which is also the official start of term.

Please do not hesitate to contact the ECCO Office in any case of further questions.

We look forward to receiving your application!
